THANK YOU FOR SUPPORTING THE FIRE DEPARTMENT

A huge **THANK YOU** to the more than 190 residents of Stavely and District who attended the Stavely Fire Department Open House BBQ! The tremendous turnout was a wonderful show of support for the dedicated volunteers who answer the call when our community needs them most.

The momentum continues! During the event, three additional community members submitted applications to join the department, including two fully certified firefighters ready to bring their skills and experience to the team.

Just **60 days ago**, the department had 7 firefighters. Today, the Stavely Fire Department has **grown to 25 firefighters and 2 Junior Firefighters**. This incredible growth shows what can happen when a community comes together to support its local fire department.

Our growing team includes 12 NFPA-certified Structural Firefighters, 6 Certified Fire Officers, 4 Certified Fire & Emergency Services Instructors, and 3 Primary Care Paramedics. Training is also continuing, with Vehicle Extrication and Skills Development training underway and NFPA 1001 Level I Structural Firefighter Certification Training beginning in January.

Thank you to every firefighter, junior firefighter, applicant, family member, supporter, and resident who has contributed to this growth. **Your continued support is helping build a strong and sustainable fire service for Stavely and District!**
